TEN OAKS

Ten Oaks solid hardwood flooring adds timeless beauty and style to any room, home, or commercial space. Our state-of-the-art manufacturing operation, located in the beautiful foothills of Virginia's Blue Ridge Mountains, sources 100% of our fine Appalachian hardwood from Verified Sustainable Hardwood Forests. Our flooring exemplifies a tradition of excellence born of over a century of combined experience with an eye to the future in our revolutionary Six Side Seal®.

Craftsman Series

A truly unique offering, blending the distinguished look of site-finished flooring with the durability of a prefinished coating. Separated according to traditional site finished expectations to recreate an exceptional look and feel.

Width	Species	Color
3.25", 4.25", 5"	Red Oak	Red Natural
3.25", 4.25", 5"	White Oak	Saddle
3.25", 4.25", 5"	White Oak	Honey
3.25", 4.25", 5"	White Oak	White Natural

What is a Sealed Prefinished Floor?

Ten Oaks uses a patented process to coat the bottom, sides, ends, and top of each piece of prefinished flooring (even down in the grooves).

The moisture resistant seal keeps each piece of flooring at the dimensional specifications of its manufacture. The floor can be installed the same day it is delivered to the jobsite as long as the site meets NWFA specifications. The Six Side Seal® protects your floor from cupping or crowning by slowing the absorption of moisture during the humid seasons and the drying of the wood in the arid seasons. Time-tested and true, our Six Side Seal® is the preferred floor in some of the most dynamic climates in the country.

Combined with Ten Oaks' precise manufacturing methods, the Six Side Seal® provides the perfect prefinished floor.

Benefits of a Ten Oaks Sealed Prefinished Floor

- Requires no acclimation (as long as job site meets NWFA specifications.)
- Keeps flooring "manufacture fresh", enabling a more accurate match and less overwood.
- Increases dimensional stability for the life of the floor.
- Incorporates anti-mold, anti-mildew, and anti-bacterial additives under and around each piece of flooring.
- Provides physical barrier to insect infestations.

Warranty

Ten Oaks warrants the structural integrity of its products for life, and our prefinished wear surface for 20 years. Be aware that most flooring problems are due to improper installation and are therefore not covered by your factory warranty. Please make sure that you use a reputable installer and install according to NWFA guidelines. See full warranty at www.tenoaksflooring.com/limited-warranty for more detailed information.
